OBJECTIVE Work as a mechanical engineer nationally and execute innovative projects based on problem solving

EDUCATION

SCHOOL EDUCATIONAL UNIT NUESTRA SEÑORA DE LA CONSOLACION (NAZARET), VENEZUELA 2011
BACHELOR OF SCIENCE

NATIONAL EXPERIMENTAL UNIVERSITY OF TACHIRA (UNET), VENEZUELA 2012 - Current
MECHANICAL ENGINEERING

>KEY ACADEMIC COURSEWORK

Engineering Senior Design I/II Machine Design I/II Applied Thermal Fluids Finite Element Analysis

Electro-Mechanical Devices Manufacturing Methods Thermodynamics Dynamic Systems

CUBIWELT C.A, VENEZUELA 2021

AIR CONDITIONER INSTALLATION, MAINTENANCE AND REPAIR TRAINING.

TACHIRA STATE DIRECTORATE OF CULTURE, VENEZUELA 2012 - Current
DANCE TEACHER, CHOREOGRAPHER AND DANCER.

BARFIELD, UNITED STATES 2022 - Current
UNITS TRAINING RECORDS, OJT ALL LEVELS

WORK EXPERIENCE

EMPRESA EDUCA, MERCHANDISE SURPEVISOR 2016 - 2017

- Receive, organize and verify the correct amount of merchandise
- Check the invoices
- Delivery of the products

AGROLACTEOS C.A, SHIPPING AND MANUFACTURING 2017

- Procesing and manufacturing, packaging and dispatch of cheese

ACADEMIA EXPRESION LATINA, DANCE TEACHER AND DANCER 2014 - 2017

- Basic, intermediate, advanced and master's classes

ACADEMIA MELAO CASINO & SON, DANCE TEACHER AND DANCER 2017 - 2021

- Basic, intermediate, advanced and master's classes

POLICLINICA TACHIRA, MAINTENANCE TECHNICIAN 2020 - 2021

- Pumbling, resindential electrical and carpintery
- Medical equipment and air conditioners
- It works with ISO 9000

RANDALL TILT STRUCTURES, FORMER'S ASSISTANT 2021 - 2022

- Industrial structure area
- Reading plans
- Mathematical calculations
- Work logistics

SALZA'VA DANCE COMPANY, DANCE TEACHER AND DANCER 2021 - 2022

- Basic, intermediate, advanced and master's classes

BARFIELD, AVIATION TECHNICIAN (ELECTRO-MECHANICAL) 2022 - current

- Corrective and preventive maintenance. Cleaning, repair, calibration and equipment adjustments.
 - Read, comprehend and interpret Service Bulletins, Engine Manuals, E.O., AMM, CMM, and Airworthiness Directives with input and approval of Engineer.
 - Use industry standard electronics bench test equipment, i.e. o-scope, multi-meter, soldering iron.
 - Perform testing, troubleshooting, internal inspection, quoting, disassembly, assembly, preventive maintenance and rework, on various types of Aircraft Electro mechanical components
 - Generate and revise Internal Shop Information Notes and Engineering Orders based on instructions provided by the Engineer or Designee as required based on revisions to the Engine Manuals, Service Bulletins, or other Technical data.
- Ability to read, write, and speak English.
- Study and use general knowledge of FAA requirements for a FAR 145 repair station.

SKILLS AND TOOLS

Spanish (Native), English (Intermediate), Microsoft Office Suite (Word, Excel, Outlook, etc.), Solid Edge, AUTOCAD, Inventor, Team Working & Interpersonal Skills, People & Public Speaking Skills.

Technician with experience in working with many aircraft components, self-motivated, datailed, proven ability to perform technical tasks under tight deadlines through efficent time management.

Avionics, electro mechanical and pneumatics maintenance technician, on multiple aircraft components.
